

Project Submission Requirements

Projects can be submitted as unfinished products. As long as you fill out the mentioned requirements below, you will be eligible for review for your Competition Category.

For your project submission, you must be able submit the following via DevPost ([Further instructions in submission form](#)):

- 1. Title of Project (under 'Project overview')**
- 2. Elevator pitch**
 - a. What's your idea? This will be a short tagline for the project
- 3. Built with**
 - a. What languages, frameworks, platforms, cloud services, databases, APIs, or other technologies did you use?
- 4. Invite your team**
 - a. Either share the link below privately with your teammates or send an invite link via email
- 5. Thumbnail image**
 - a. JPG, PNG or GIF format, 5 MB max file size. For best results, use a 3:2 ratio.
- 6. About the project**
 - a. Be sure to write what inspired you, what you learned, how you built your project, and the challenges you faced.

In About the Project:

- Pillar Category
- Inspiration
- What it does
- How we built it
- Challenges we ran into
- Accomplishments that we're proud of
- What we learned
- What's next for your Project

7. Video Demo of Project Features & Functionality (Anywhere between 1-2 minutes)

- a. Submit as a file or provide a link (under 'Project details' or 'Additional info' tab)
- b. Video Demo requirements:
 - i. Run through of your project
 - ii. Explanation of your code briefly

8. Link to Source Code

- a. A Github Repository, proof for the existence of one's code and to test out.

9. Team Member Names or Solo Competitor (under 'Manage team' tab)
