

# Visual Definition - Vocabulary Activity

## Steps for creating a visual definition

1. Choose one of the vocabulary words for this week
2. Open a new google drawing
3. Insert a picture as the background that shows what the word means.
4. Insert text boxes to put in the word, the word class (e.g noun, verb etc), the definition and an interesting sentence that uses the word to match your picture.
5. Try and make the sentence interesting such as by using humour or asking the readers a question to get them thinking.

Here is another example [here](#)

One of this week's words was appeal. Here is an example of an image you could use for this word.
