

Create Your Own Food Web

Name: _____

Score: _____

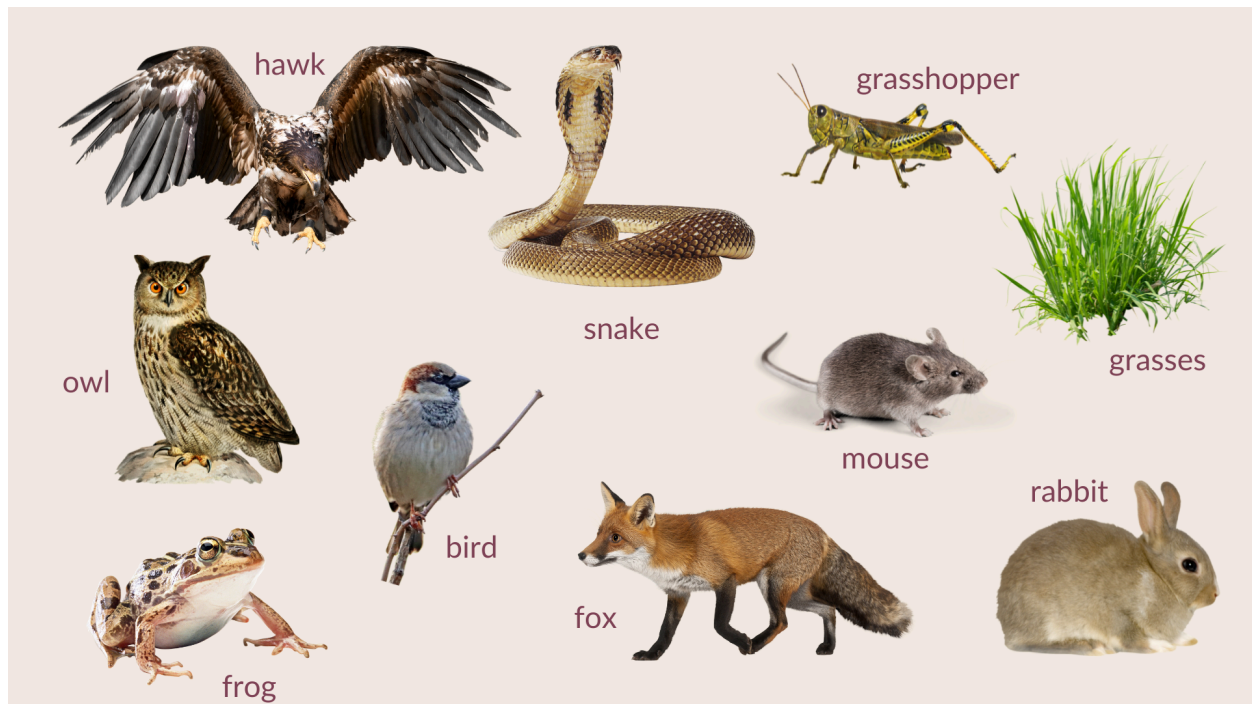

Directions: Create your own food web given each set of organisms. You have 2 options.

Option 1: Drawing/Illustration. The student will draw or illustrate the animals on a separate paper and create lines and arrows to form a food web.

Option 2: Print outs/Cut outs. The student will print the pictures of the animals and will paste them in an illustration board connecting them with threads or yarns to form a food web. After creating the food webs, provide a brief discussion for each set.

Note: It is important to include ALL organisms given in each set.

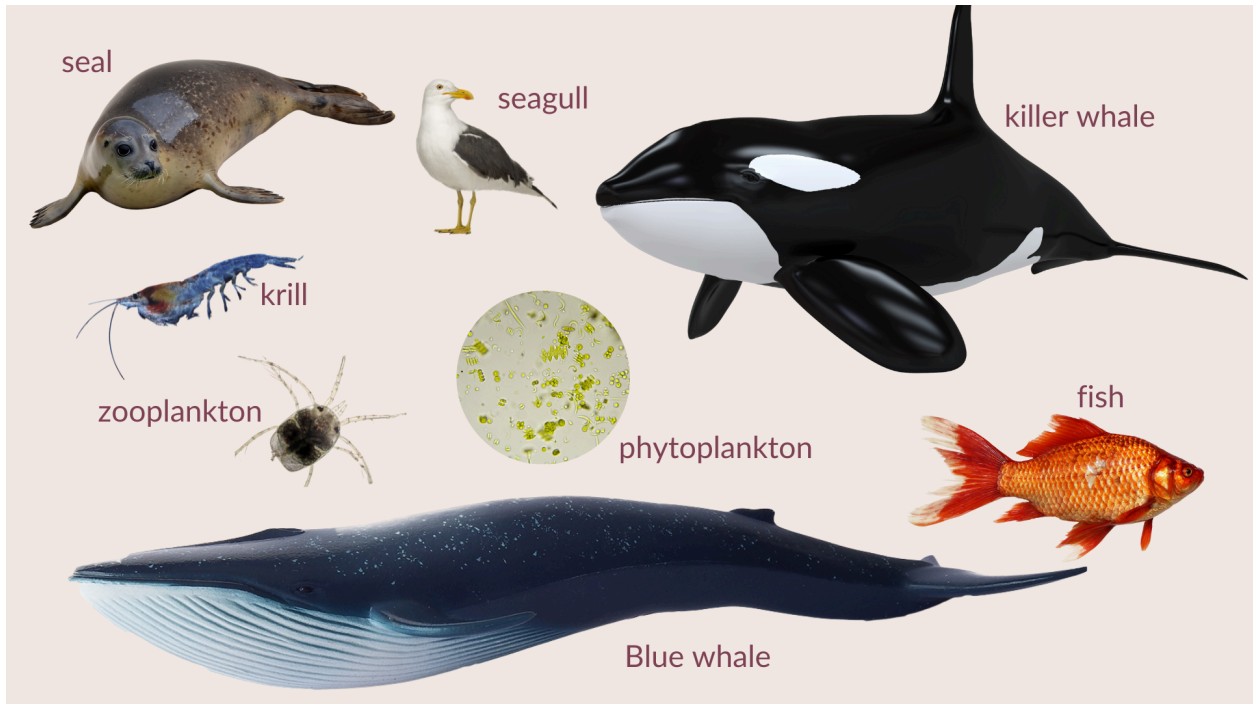

1. First set: Hawk, owl, frog, bird, snake, fox, rabbit, mouse, grasshopper, grasses.

Create Your Own Food Web

2. Second set: Phytoplankton, fish, blue whale, seal, krill, seagull, killer whale, zooplankton

3. Third set: Zebra, hyena, dead wildebeest, bacteria, grasses, hare, cheetah, vulture, lion.
