

Chapter Title

Author Name(s)

Department, Faculty, University, City, Country

Email: example@domain.com

Abstract

This abstract should be 150–250 words, providing a concise summary of the chapter's purpose, methodology, key results, and implications. Avoid citations and keep it in a single paragraph.

Keywords

keyword1, keyword2, keyword3, keyword4, keyword5

1. Introduction

Introduce the research context, background, and relevance of the topic. Clearly state the problem statement, research objectives, and the structure of the chapter.

2. Literature Review / Theoretical Framework

Summarise relevant research, theories, and frameworks related to the topic. Highlight gaps in the literature.

3. Methodology

Describe the research design, data collection methods, sampling, instruments, and analysis techniques. Mention any ethical considerations.

4. Results / Findings

Present the research results with appropriate tables, figures, and descriptions. Avoid interpreting the data here.

5. Discussion

Interpret the results, link them to the literature, explain implications, and discuss limitations.

6. Conclusion

Summarise the main findings, highlight their significance, and suggest future research directions.

Acknowledgements

Acknowledge contributions, funding, or institutional support.

References

Follow the reference style required by the publisher (APA, Harvard, IEEE, etc.). Ensure all citations are listed.

Appendices

Include any supplementary materials, such as datasets, extended tables, or additional figures.

Note: The word limit should be between 5000-8000 words, including referencing and abstract, tables, figures, etc.
