

SUE ELLEN MOWCOMBER- Sue Ellen Mowcomber has been a member of NEECA since moving to our area in 2009 and a board member since 2010. Sue Ellen grew up in Northern Ohio and fostered a deep connection with animals from a very young age.

She attended The Ohio State University college of veterinary medicine and graduated with her DVM in 1989 and moved to New England. She currently owns and practices medicine at Family Pet in Athol.

Though she has occasionally done low-level competitions, her real Equestrian love is trail riding. She, her Haflinger cross Rory, and friends can be seen strolling along the trails at NEECA and other Equestrian-friendly parks in the area.

She introduced a successful Triathlon competition for NEECA and has been active in coordinating with the town for the benefit of the park. Her next major effort will be helping to expand the NEECA trail system so that it can connect to areas outside the park and offer more variety and distance to our riders.
