

# Keyword Highlighter Chrome Extension Privacy Policy

**Effective Date:** March 6, 2025

**Last Updated:** March 6, 2025

## 1. Introduction

This Privacy Policy explains how **Keyword Highlighter** (the "Extension") collects, uses, and protects user data when installed and used on Google Chrome.

## 2. Information We Collect

The Extension collects and stores the following data locally on your device:

- **User-defined Keywords:** The keywords you add to the extension are stored using **Chrome Storage API** for persistence across browsing sessions.

### Information We Do NOT Collect

- **No Personal Data:** We do not collect, store, or process any personally identifiable information (PII), such as names, emails, or LinkedIn login credentials.
- **No Browsing History:** The extension does not track or collect information about websites visited.
- **No Data Sharing:** We do not sell, trade, or share any user data with third parties, advertisers, or external services.
- **No Remote Storage:** All data remains on your device and is not transmitted to external servers.

## 3. How We Use Information

The extension uses locally stored data solely for the following purposes:

- Highlighting user-defined keywords on LinkedIn job descriptions.
- Displaying matched keywords in a summary panel.
- Persisting user preferences to ensure a consistent experience across browser sessions.

## 4. Permissions

To function correctly, the Extension requires the following permissions:

- **storage**: Enables saving and retrieving user-defined keywords within Chrome Storage.
- **scripting**: Allows injecting scripts to modify the job description content dynamically.

These permissions are strictly scoped to LinkedIn job pages and are **not** used to collect user data.

## 5. Data Security

We take appropriate measures to protect user data, including:

- Using **Chrome Storage API**, which keeps data isolated within the browser.
- Restricting extension permissions to **only LinkedIn job pages**.
- Ensuring that no user data is transmitted to external servers.

## 6. Third-Party Services

This extension does not integrate with any third-party services, APIs, or analytics tools. All processing happens locally on your device.

## 7. User Control & Data Deletion

You have full control over your data:

- You can **add, edit, or remove keywords** via the extension's popup UI.
- You can **clear all stored data** using the "Clear All" button in the popup.
- Uninstalling the extension **automatically deletes all stored data**.

## 8. Changes to this Privacy Policy

We may update this Privacy Policy to reflect changes in functionality or compliance with **Google Chrome Web Store policies**. Updates will be posted on this page, and we recommend reviewing it periodically.

## 9. Contact Us
