

Orange Myr Sighting Event

By: RanmaChan

//Can only be found after the PC has completed the entire Myr Hybridity Quest, including giving the Orange Pill to the UGC Diplomat Juro. This event can only trigger after 7 to 14 days have passed of Juro telling the PC he would offer the transformative item.

//Location, random Gildenmere tile. Time, anywhere between 12:00 - 4:00 in the afternoon.

Walking around Gildenmere you are surprised at what you see, a group of orange Myr! Sure, they are getting some odd looks from the golds around them, even a hostile glance every now and then, but they don't seem to be paying any attention to it at all. In fact they are acting quite normally; walking, talking, looking into stores and window shopping like they were just having a regular day out on the town. Before the crowds overtake you, and the group turns the street corner, you even catch sight of what might be a modified human travelling with the group.

//pc.personality = Kind

Huh, who would have thought! It looks like Juro kept his promise. Maybe this will work after all?

//pc.personality = Mischievous

Hopefully things continue to go well for them, they looked happy. Maybe this will have a positive effect? You hope nothing bad happens to them.

//pc.personality = Hard

You really hope that this won't turn out like Juro said. This may end up causing more harm than good, but it will be up to them and the examples they set.

//Event ends.
