Thank you for enquiring about our Rare Silver Guardian Labradoodle Puppies. Our Guardian home families get to have the very best Australian Labradoodles we breed...our pick of the litter puppy. These puppies will be assessed for entering our breeding program at 12 months of age.

Our Family Care Guardian Puppy Program applications are assessed on an individual basis & take into account suitability, distance, environment and our future breeding program along with other factors.

As ALA accredited breeders, it is our responsibility to ensure that our puppies are going to a sound, safe environment that is suitable long term for the health and development of the pup. Our guardian program also requires an ongoing commitment and working relationship between us & our guardian family for approximately 4 years.

With this in mind could you please download, fill in, and return the information below.

<i>Type - Cat</i>	<i>Age -</i>	<i>Description – nature – laid back will remove itself from puppy</i>

<i>Type - Dog</i>	<i>Age -</i>	<i>Description – nature – Male /Female Desexed?</i>

At this point in time we only offer female guardian pups in our program; we may have males in the future.

1 st choice	Female	Colour	
Preferred size	Miniature 35-42cm, 7-13kg Medium 43-52cm, 13-20kg Standard 53-63cm, 23-30kg		

Home –where puppy will live –

What experience do you have with dogs, is this your 1st fur baby or have you had previous dog's.

--

Where it is possible due to our location, we try to work with our families meeting them ½ way if the guardian girl is in season, or traveling to us for mating etc or we try to have procedures such as progesterone testing done close to your home. We still work closely with our your vet along with Yarra Ranges Animal Hospital in Lilydale. However, you are making a commitment to provide access to your breeding girl in a timely manner when required, and it will require you at times, to travel to complete your commitment to the contract.

Submitting this application does not guarantee you will be accepted into our guardian program.

Kind regards Dave & Virginia Headley - Rare Silver Labradoodles
