Dear Sir/Madam

This letter is composed in dummy text. It is designed to be read, but carry no meaning. As a simulation of actual copy, using ordinary words with normal letter frequencies, it cannot deceive eye or brain. Dummy settings which use other languages or even gibberish to approximate text have the inherent disadvantage that they distract attention towards themselves. Simulation text may be provided in any typeface, at whatever size and format is required. Paragraphs may be long or short. Texts can be produced to complete any area, as the copy is simply repeated using different starting points.

A stylized, handwritten signature in black ink, consisting of several overlapping loops and a long horizontal stroke.

Yours sincerely,
