Intro/Hook

Hook	<p>So we all know the news by now that Tucker Carlson and Don Lemon were both terminated from their respective news platform. But could there be a connection to Big Pharma with this? We'll unpack that story in a bit.</p> <p>Speaking of Fox, they were with a \$700+m settlement with the Voting machine company, Dominion, but we want to highlight the hypocrisy of the left. AND possible connections of Dominion to the World Economic Forum.</p> <p>And we'll wrap the show up with Conspiracy theories that turned out to be TRUE!</p>

Segment 1: Media Companies Changing? Is Pharma Behind this? - (Tucker, Lemon, etc.)

Hook	<p>So it's been a few days with this story, Tucker Carlson of Fox News and Don Lemon of CNN were both let go on the same day. Both talents were let go without any formal advance notice. I know what you're asking... is there something bigger that we're missing. Is there a connection here to the global elites and overlords?</p> <p>I think we CAN speculate a few scenarios as to why this is happening and who could be behind this.</p>	<p>https://www.weforum.org/agenda/2023/02/americans-think-of-news-organizations/</p> <p>https://www.weforum.org/communities/media-entertainment-and-information</p> <p>https://wfanet.org/leadership/garm/members-governance</p> <p>The above members are mostly all partly owned by either Black Rock, State Street, Vanguard or all of</p>
------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

		<p>the above. They could pressure Fox, CNN, NBC, etc to do whatever they please.</p> <p>I forgot to add this clip in as well. It's pretty telling as to what could have contributed to Tuckers severance.https://youtube.com/shorts/Zp8S448xkPg?feature=share</p> <p>He definitely said the quiet part out loud. And coming from him, it holds.</p>
<p>Setup</p>	<p>So let me set the stage a little bit here. It's all about the saying, Follow the Money.</p> <p>Where do news channels get their revenue from? Ads, right?</p> <p>In 2020 TV ad spending of the pharma industry accounted for 75 percent of the total ad spend. They went from 3.79bn in 2019 to 4.58bn in 2020. (I wonder why?)</p> <p>You guys remember the "Brought to you by Pfizer" They are responsible for 75% of the big ad spend.</p> <p>Look what's coming up soon... We talked about this.</p> <p>On Jan. 30, 2023, the Biden Administration announced its intent to end the national emergency and public health emergency declarations on May 11, 2023, related to the COVID-19 pandemic</p>	
<p>Climax</p>	<p>So here's the ultimate connection here...</p> <p>We MIGHT start seeing investigations on the COVID narrative. What the big pharma is scared of is another Twitter files event.</p> <p>What I'm suspecting is that big pharma is "forcing" the media companies to move its chess pieces</p>	

around.

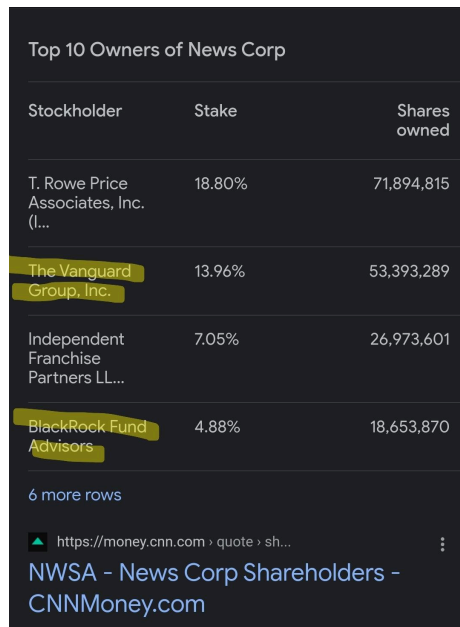

Tucker, especially, is a force that will likely expose the big pharma IF there's an investigation and a Twitter-file "like" event on big pharma and the covid narrative.

Tucker does a great job with debates. Whether you disagree with him or not. He does a good job standing for healthy, amicable, and honest debate that challenge ideas. We NEED this in the country. Debates encourage critical thinking. Debates are the anthesis of tyranny and authoritarianism.

WHOEVER is the next president/administration - they can end all covid emergencies.

Now here's another way of looking at this. Both Vanguard and Blackrock own a substantial amount of shares on both Fox and CNN.

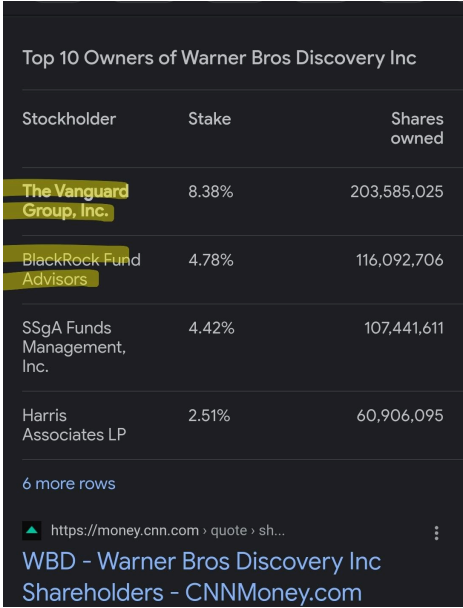

Both Vanguard and Blackrock are proud strategic partners of the World Economic Forum. So it's pretty clear that our corporate overlords are playing both sides and pitting us against each other.

NWSA - News Corp Shareholders - CNNMoney.com

NewsCorp owns Fox News

	 <p>Warner Bros Discover owns CNN</p> <p>Though I have no idea of the exact reason why they were both let go. I think it's relatively obvious that Don Lemon pissed off the Left with his on and off-air comments, and Tucker was a growing issue for the larger players. Also, I think that there is a general strategy in play to have a changing of the guards to give the illusion of choice.</p>	
Resolution	It's REALLY important that you and I support independent media channels, shows, and creators like us. Because we're not beholden to the powers that be. We REALLY have to be careful not only what we consume on media but also what we allow our children to see and hear.

Segment 2: Hypocrisy of the Left For Voting Machines (Double Standard)

Hook	<p>So speaking of Fox, we all know the story about Fox’s defamation lawsuit with Dominion, the voting machine company. Fox had to pay nearly \$800m to Dominion to settle the lawsuit.</p> <p>But I want to point to not only the hypocrisy of this BUT maybe a deeper connection that Dominion has possible ties to the WEF.</p>	<p>https://www.staplestreetcapital.com/Team#:~:text=Staple%20Street%20%2D%20Middle%20Market%20Private%20Equity%20Firm%20%2F%20Investment%20Management%20%2D%20Team&text=The%20co%2Dfounders%20of%20Staple.Buyout%20Group%20starting%20in%201998.</p> <p>https://www.knoxfocus.com/archives/this-weeks-focus/double-standards-and-liberal-hypocrisy/</p> <p>https://www.google.com/amp/s/nypost.com/2023/02/17/the-lefts-racist-attacks-against-nikki-haley-show-hypocrisy/amp/</p> <p>https://www.heritage.org/life/commentary/exposing-the-lefts-hypocrisy-womens-health</p> <p>https://www.aei.org/politics-and-public-opinion/more-liberal-hypocrisy-on-college-campuses/</p> <p>https://www.telegraph.co.uk/news/2023/04/20/the-lefts-attacks-on-fox-news-are-shrouded-in-hypocrisy/</p>
Setup	<p>So back in 2016-2018, the left-leaning media outlets were SCREAMING that voting machines can be hacked and rigged.</p> <p>ABC News covered a story: In a January</p>	

2018 report, the Congressional Task Force on Election Security warned that “many jurisdictions are using voting machines that are highly vulnerable to an outside attack.” Cybersecurity professionals concur. Voting machines are “not designed to face any sort of hostile environment,” said Ryan Kalember, a vice president at cybersecurity firm Proofpoint, which says they work to combat phishing attacks against election officials. - ABC News

“A few weeks ago computer scientist J. Alex Halderman rolled an electronic voting machine onto a Massachusetts Institute of Technology stage and demonstrated how simple it is to hack an election.” - Scientific American

Other news outlets like Reuter, NBC News, and New York Times... All between 2018-2020 have been screaming how vulnerable our voting machines COULD BE to cybersecurity threats.

And yet, Dominion only picks Fox to go after.

Just a little background on Dominion

75% of the company is owned by Staple Street Capital - an investment company.

It was once owned 100% by Canadian nationals.

Dominion previously donated between \$50,000 to \$100,000 to the Hillary Clinton campaign and includes hiring a former member of Nancy Pelosi's staff to do lobbying work

EXECUTIVE BOARD

The Executive Board augments Staple Street Capital's broader network of industry executives who help the firm identify and evaluate new investment opportunities, and provide value added resources to support the firm's portfolio companies.

Subject: Dominion Voting Systems

In short, we can credibly say there’s valid questions about the security and reliability of Dominion’s systems.

Important to note they are operating in a number of states, but not necessarily statewide.

Toplines below, full report attached.

TOPLINES

Dominion Voting Systems

- Dominion Voting Systems is a private company originally founded in Canada, but which now has a significant U.S. presence
 - Dominion has headquarters in Colorado under the subsidiary Dominion Voter Systems, Inc.
- Dominion is reportedly 75% owned by private equity firm Staple Street Capital, 12% owned by it’s Co-Founder John Poulos, with the remainder owned by other members of the firm’s leadership
