MEETING MINUTES

- **Topic 1 – Draft Final Report Presentation**

The consortium discussed about the final reporting and the project Timesheets. The project financial officer informed the partners that a project audit has been scheduled for the 26th of June.

The template of the final report has already started being populated and all partners were asked to fill in all the information regarding the activities that they carried out. It was pointed out that some KPIs can't be reported yet in their totality, considering that the related WP (dissemination) is still in progress. The final report draft is in the respective Google Drive folder and can be accessed here:

Regarding the missing information and documentation, the related partners stated that they are in draft form, and they are in touch with the financial officer to discuss a couple of points before their finalization.
