

Collecting and Organizing Data the Quick and Easy Way

- Google Classroom will host most of our documents for this session. You can access the [Google Classroom using access code a0ewk3c](#)
- Inside Google Classroom you'll be asked a series of anonymous questions to collect data quickly and in real time. (Insert Form Link here)
- We will then use the responses from this data to quickly interpret our data through charts and graphs.

Teaching 3 Lessons in 50 Minutes, the Easy Way

- Google Classroom will host most of our documents for this session. You can access the [Google Classroom using access code aqnsoa](#)
- We will explore one example of the station, rotation model that focuses on low tech, high tech, and teacher led stations. The high tech station will use a video lesson from Khan Academy (insert link here)
-
