UNCLASSIFIED

2. (U) Mission. (use provided template or develop your own statement) On order, Choose an item. with Choose an item. will Choose an item. in the Choose an item. in order to Choose an item.

(Identify your tasked mission derived from the Commander's intent. The mission statement is a concise statement of the task and purpose of the operation (usually one sentence) which describes the mission in terms of the elements of who, what, when, where, and why. – DELETE FROM FORM BEFORE SUBMITTING)

3. (U) Execution.

- a. (U) Concept of Operations. (A description of how the operation will be conducted to accomplish the mission. It includes a narrative of the actions to be taken and a generic organization for combat (main and supporting effort, reserve, etc.).

(The concept of operations is a statement that clearly and concisely expresses what the plan intends to accomplish and how it will be done using available resources.

This describes the course of action that provides a basis for supporting concepts such as: Concept of Maneuver, Concept of Fires, Concept of Support, Other Concepts as Required. – DELETE FROM FORM BEFORE SUBMITTING)

(1) (U) Commander's Intent.

(This describes the intent by describing the purpose and end state of the operation.

This statement deals primarily with the military conditions that lead to mission accomplishment. It may also include an assessment of where and how much risk is acceptable during the operation. The purpose explains why the military action is being conducted. The end state describes the conditions that define mission success. It also describes how reaching the end state supports higher headquarters' national objectives. – DELETE FROM FORM BEFORE SUBMITTING)

(a) (U) Purpose and End State. Choose an item. will conduct this operation to Choose an item. in support of national objectives. The end state will be Choose an item. and national objectives achieved.

(b) (U) Objectives. (use provided objective or create your own)

(Objectives are clearly defined attainable goals, toward which operations are directed. They are specific, measurable, achievable, relevant, and time bound. At the tactical level, forces are arranged and employed to execute specific immediate tasks or missions. Although tactical tasks may not directly achieve operational or strategic objectives, the cumulative effects of the tactical events, coupled with operational and strategic events, should achieve those objectives. Both desired
