

Digital Learning at LPS

Learning must extend beyond the walls of our schools for students to compete with their peers. We must provide students with anytime, anywhere access to the curriculum and the necessary tools to personalize their education.

Technology Guide - How to access edtech tools through Clever

This guide was developed for students in grades PK-8

What is Clever?

Clever gives students and teachers a single login portal for many of their online learning programs and resources, personalized for each user's needs.

How to access the Clever portal

When a student logs into a chromebook, the Clever login portal will automatically load. Students will need to click the “Log in with Google” button the first time they log in.

How to access edtech tools

Many, but not all of the edtech tools that will be used at the Elementary School will be listed here.
