subject: My sport competition

Hi Jose, How are you?

I am fine, I will enter to a football competition. If my team wins, we will meet Lionel Messi! Can you believe that?

In this competition there are 12 teams with direct elimination. Also, an important rule is if you have a red card or 2 yellow cards you will be eliminated.

For this competition we will practice 2 weeks before the competition and we will eat healthy.

I will be waiting for your answer

Martín

How to plan a perfect party

A perfect party must have good food, good drinks, popular music, a dj, you have to invite many people, you have to announce the party in the social networks for people to come.

Some parties are not successful because the music is bad or the guests do not come. Also if the food is bad the party will be bad.

I prefer the kind of parties with good music, a lot of people, a section to dance and delicious food. Also some persons do formals parties, that are also a good kind of party

Other kind of parties are the costume party or a party in the pool with barbecue.

Luck with your party

My trip to the south

In the summer I went to the south, we visited Puerto Varas, Chiloe, Futaleufu, Bariloche and Pucon.

I will talk about Bariloche. Bariloche is a beautiful place, it is a city of Argentina.

The landscape is amazing, green hills and a beautiful lake. The next day we went up a hill on a lift named Otto. Up the hill there was a spinning restaurant. The food was delicious.

In the hotel we met a family in the barbecue area. I played ping pong with a boy named Andres. As far as I know, he is 13 years old. I won the match of ping pong.

Bariloche is a very beautiful place, you can do a lot of things and I think I will go Again
