## **PROVIDE THE PROOF**

On Jan 17 we are asking school trustees and other elected officials to provide:

- Proof/Evidence that masks prevent and reduce transmission of viruses
- Proof/Evidence that masks do not cause negative side effects
- Proof/Evidence that rapid antigen testing is conclusive and does not cause harm
- Proof/Evidence that persons not vaccinated against Covid-19 are causing more transmission than vaccinated individuals
- Proof/Evidence that vaccinations for Covid-19 prevent transmission

It's time to hold them accountable for the sweeping mandates and measures they impose on our children, educators and staff.

Find your local trustees here:

<https://www.asba.ab.ca/school-boards-and-zones/school-boards/>

[deena.hinshaw@gov.ab.ca](mailto:deena.hinshaw@gov.ab.ca)

**Send or schedule your email to be received by/on Monday Jan. 17 at 9am.**

You can edit and personalize the email below (we encourage making it your own).

Trustees and Elected Officials:

I am a concerned (parent, educator, citizen...) from your district and I have some questions for you today.

Recently, you have made decisions that were proclaimed to be in our children's best interest. For example, implementing rapid testing programs and mandatory masking at schools. However, since our provincial leaders and city officials only refer back to the WHO and CDC, they clearly have blind spots in their decision-making. We are asking you to consider the implications of these measures on our children, the next generation, as you are called to do. It is clear you have not researched any of the actual science or proof behind imposing these so-called "safety measures".

I am calling upon you today to **provide the proof** that the following measures have strong efficacy and data behind their mandatory implementation:

Provide the Proof

- Proof/Evidence that masks prevent and reduce transmission of viruses
- Proof/Evidence that masks do not cause negative side effects
- Proof/Evidence that rapid antigen testing is conclusive and does not cause harm
- Proof/Evidence that persons not vaccinated against Covid-19 are causing more transmission than vaccinated individuals
- Proof/Evidence that vaccinations for Covid-19 prevent transmission

What kind of educators would tell children to not question science? You were elected to your positions to help in raising our children and teaching them to question and be inquisitive. If you cannot provide the proof as requested above, I would ask you to question why the current policies are supporting these measures. Show us the proof! Show us the peer-reviewed studies! You must prove that these policies are effective and safe.

If you cannot provide the proof, you must advocate for these measures to stop!  
If you cannot provide the proof, I am happy to share with you some of the evidence I have found in my own research.

Looking forward to hearing back from you,

**FOLLOW UP with your email within one week and ask if they have had a chance to do any research. If not, feel free to share any resources you have or research.**

**Documentation you could attach or send as a follow up:**

**To date, the evidence has been stable and clear that masks do not work to control the virus and they can be harmful, especially to children. Please see the following compilation of 167 studies and pieces of evidence. This compilation was made by Dr Paul Elias Alexander, a well-respected epidemiologist and former WHO advisor.**

Provide the Proof

**Masks are harming children psychologically and developmentally. We will see the impacts for years to come and we must stop using them now.**

<https://brownstone.org/articles/more-than-400-studies-on-the-failure-of-compulsory-covid-interventions/>

**There is evidence that children are at very low risk of acquiring SARS-CoV-2 infection in the first place due to limited ACE 2 receptors in the nasopharynx and a pre-activated innate immune system.**

**In addition, while cases of Covid-19 are high, ICU admissions and deaths are at the lowest of all waves. This would be a very good time to eliminate the requirements for masks in schools.**
