[Optional: insert summary statement here]

PROFESSIONAL EXPERIENCE

COMPANY NAME

Senior Software Engineer

City, State

December 2020 –Present

- Ensure you are including evidence/quantified information listed for impact (e.g. size, scale, budget, staff, %, \$, #, etc.).
- Make sure you include keywords from the job listing, or that apply to the industry.
- Clearly communicate the “what” and “why” of your experiences/roles - (e.g. customer and impact) before diving into the “how”.

COMPANY NAME

Software Engineer

City, State

July 2017–November 2020

- Begin all (or at least most) bulleted statements with an [action verb](#)!
- Include the tech stack / languages used only after you’ve provided the important context.
- Create formatting consistency throughout your resume.

COMPANY NAME

Software Engineer Intern

City, State

May 2017–August 2017

- Use the appropriate tense for your experience - if it is an on-going or present position, you may use present tense.
- Be sure to include projects, activities and results for each experience.
