

# Embellishment

**PLAN: MAKE OUR SCHOOL LOOK  
LIKE AN ARTS SCHOOL!!!**

# Guidelines and Proposals of Embellishment

LaGuardia lives up to its expectations in many regards when it comes to the arts. We have some of the best musicians, artists, dancers and singers in the city. It is a great shame that our school building does not reflect all of this creativity. We can do very little to change the outside of our school and its physical structure, but we can do everything in our power to change our school from the inside. We call this Embellishment!

- No matter how long we have been away from in person learning, all of us seniors are very familiar with the escalator sections and some of the murals that were painted there. Although there were some attempts to revitalize the murals, more can be done. So many of the paintings are outdated to a point where it's not cute enough to be vintage but not new enough to look fresh.
- **GUYS. WE ARE LAGUARDIA.** Our halls look embarrassing for what is supposed to be the city's most well-known performing arts school. If we were in person, there would be campaign papers on certain doors and walls. Sometimes announcements are also posted. What we're saying here is that if those kinds of posters can be approved, then why isn't there more art on our walls. We're not just talking bulletin boards, we envision a hallway walk to be more like a gallery. For the sake of artistic seriousness as well as hallway safety (making sure they don't fall and make people slip), these posters would still have to go through an approval process. With this incentive on our minds, we guarantee pushing this idea forward constantly.  
---These incentives can feature a multitude of different artworks. There can be paintings, doodles, small sculptures, pottery, string art, YOU NAME IT!

**DO NOT REGARD THESE IDEAS AS INSANE, WE ARE AN ARTS SCHOOL**

- An artist at heart is an artist at heart! Although our beautiful art majors are perfect in everything that they do, many different students of many different majors love to take part in visual arts as well. Our embellishment proposals would be open to students of every major!!!
- Elephant in the room (if you were thinking about it)  
**What happens when the halls fill? What about next year?**

**Our plan is to do as much as we can do in the constraints of the year. Once the seniors are out, it's up to the rest of the school to decide how to remodel the halls. This can become a beautiful tradition if people wish to have it. The halls are always going to be updated, (won't be boring) and as the year goes on, we will be able to see progress in the amount of art, it would be so fun.**
