What is WeVideo?

WeVideo is a video-creation site that allows you to create, edit, and share video content in one place. It's cloud-based, which means multiple people can collaborate and work on the same video from different locations. [Source](#)

How do I get a WeVideo account?

1. Go to wevideo.com
2. Click Log In in the upper right-hand corner
3. In the left column, click the red Log in with Google button
4. Select your Summit Google account

What do I need to know to start a project?

Here are [written directions](#) of the basics to get you started and here is a compilation of [getting started video tutorials](#).

Does the District have more resources available?

Yes, video tutorials can be found [here](#).

I'm really into creating these videos! Are there any in-depth resources available?

Yes! [Here](#) is The Educator's Guide to WeVideo created and updated by The WeVideo for Education Team.

When I export my video, there is an option for the video to "Mark video as public," what does this mean?

So the public toggle means that if you share the WeVideo link for that export (completed video) with someone, they will be able to access it. It's kinda like WeVideo has their own "YouTube" as far as

internet users being able to access the video without having a WeVideo account.
