

High Five Friday

Connect Activity

Camera Hunt

What you'll need...An Ipad

Getting Into the Activity...

Get to know your classroom even better. Set up a photo treasure hunt for a class mate to complete. Look around the classroom with an Ipad, taking obscure or close up photos of things you find. Take at least 10 photos and then challenge a class mate to go around the room and work out what they are. You could time how long it takes or give them a time limit.

Here are some examples...

Door handle

The corner of a photo frame

Part of a soft toy

The tip of a key
