

Ruth Moysey PhD, FRSC, SSBB, APM-PMQ

Ruth is Director of Manufacturing at Oxford Nanopore with 20 years of experience working at the interface of chemistry and technology. Oxford Nanopore provides a platform technology that enables DNA sequencing and single molecule detection. With expertise spanning chemistry, biologics, technology and six sigma methodology, Ruth uses that experience to innovate manufacturing processes and embrace new methods, automation and analytics. Ruth provides strategic insight to support senior leadership. Ruth has a PhD in chemistry from the University of Edinburgh and has worked across R+D, tech transfer, pilot scale and production.
