Wisconsin Medical Professionals Urge Voters to Choose Judge Janet Protasiewicz for Wisconsin Supreme Court

As medical professionals across the state of Wisconsin, we urge voters to support Judge Janet Protasiewicz for Wisconsin Supreme Court on April 4th. This election offers a critical opportunity to elect a justice who prioritizes reproductive freedom and health, thus flipping our Supreme Court to value women's health and medical freedom.

In our collective decades of medical experience across backgrounds and specialties, we've seen how critical access to abortion, a standard and safe part of health care, is to our patients' health and well-being. Pregnancy can be extremely dangerous, and when complications arise, doctors must be able to use the full range of treatment options in order to save our patients' health and lives. [Research shows time and again](#) that women who are denied abortion care experience worse health outcomes.

We're experiencing this dangerous reality right now in Wisconsin, where the archaic 1849 abortion ban that went back into effect in 2022 is [forcing women](#) to delay life-saving care. This ban provides no exceptions for rape or incest, and while it does provide a vague exception to save a woman's life, it forces physicians to consult with colleagues and lawyers before providing the life-saving care we've been trained to provide — putting patients at risk.

Like most Wisconsinites, we simply don't want politicians in our emergency departments or exam rooms. Regardless of circumstance, we believe decisions around abortion are private, and should be made between women and their trusted doctors, not by politicians or judges.

Judge Janet Protasiewicz agrees. She's made clear that [she believes](#) in a woman's freedom to make her own decisions around abortion.

But her opponent, former Justice Daniel Kelly, doesn't. Because of his extremist views against abortion, he's been endorsed by [three anti-abortion organizations](#), including one which supports banning all abortion with [no exceptions](#), even for the woman's life. He's [even provided legal guidance](#) to Wisconsin Right to Life, which [supports banning abortion](#) even in cases of rape and incest.

Mr. Kelly's extremist positions are at odds with the fundamental practice of medicine — and with public opinion. [Six in 10 Wisconsinites](#) support abortion access in most or all cases.

In the April 4th election, we have an opportunity to make our voices heard on abortion access, and on Wisconsin's dangerous 1849 abortion ban. The timing couldn't be more critical, as the Wisconsin Supreme Court will likely eventually decide whether to uphold this ban or not.

Who we elect to the Wisconsin Supreme Court could impact women's health and freedom for decades to come. Medical professionals across Wisconsin urge voters to stand up for reproductive freedom and health by voting for Judge Janet Protasiewicz.

Signed:

Ann Helms, MD + WI Lead for the Committee to Protect Health Care; Critical Care Neurology (Milwaukee)

Kristin Lyerly, MD, MPH + Member of the Committee to Protect Health Care's Reproductive Freedom Taskforce; OB/GYN (Green Bay)
