

## The Science of Cooking a Turkey, and Other Thanksgiving Dishes

Level;	intermediate plus
Audience;	conversation classes conversation clubs
Time;	about 75`
Materials;	<a href="#">Lesson plan</a> <a href="#">Conversation cards</a>

In this lesson participants learn about the traditional foods served at a Thanksgiving feast, how to cook them, and what is on the menu on this special occasion. To wrap up, participants might make their own recipes following different cooking techniques necessary for preparing a Thanksgiving feast. Alternatively, participants may talk about their family recipes, and make posters to share with a wider audience. As a follow-up, posters students/participants make could be shared on the institution's website or social media platforms.
