**OUR MISSION:** We believe that rank-and-file, bottom-up workplace organizing is key to building a socialist current in the working class. We will train rank-and-file organizers to energize existing unions, to organize the unorganized, and to build the socialist movement in their workplaces. We will encourage, support and assist Portland DSA members to “salt” into workplace organizing campaigns or establish campaigns where none exist. We will mobilize Portland DSA in solidarity with strategic workplace campaigns.
