

Milestone Deliverable Review Report

Deep Funding Round: 4

Project code: DFR4-IDT1

Project title: Next Trend LAB: Exploring Decentralized AI for IoT

Milestone number: 1

Milestone deliverable:

https://docs.google.com/document/d/18pdKMrbVLKSmtfZns2tcwRyNajdLns9N_Gj1NvQRIC/edit?usp=sharing

Date: 13/11/2024

Status: Accepted

Feedback (Why accepted, why rejected?):

This milestone deliverable contains the purpose of this project which is to evaluate the feasibility and review the risks associated with fusing decentralized AI algorithms with IoT devices. Clear definitions of how AI and IOT works and previous attempts on how they tried to be integrated. Clear Methodology on how this project plans to integrate Decentralised AI with IoT which includes data collection, Risk and Feasibility Analysis with analysis on how this integration can be used in smart homes.

If rejected, suggested changes:
