DOGGO STUDIOS STATEMENT

Heyo supporters and staff of Doggo Studios,

It's been a blast these past 4 years in Doggo Studios, starting from Sebby: Beyond Redemption to the end of All Aces Two. I absolutely bless every single one of you who have supported me on my journey, and I hope that I have also helped you on your own journey and progression. 7 years ago when I first played Piggy, I knew it would change my world, and it very well did. I probably wouldn't have tried to enter into the film world without it. If I had the chance, I'd do it all over again!

I'm very, very passionate about my work, so in the time between All Aces 1 and All Aces 2, I had a realization that it honestly would not have been feasible. All Aces 2, if you've seen the publicly released script, is a BEHEMOTH to not only read, but to animate. Even if I put together a team of qualified animators, the best case scenario is that production and post-editing would take at least 1-2 years to complete, and honestly this would have been worth the grind if we were in 2022-4. However, ever since the release of Piggy: Intercity, hype for Piggy, and genres like Piggy have sadly been reduced to short-formed content in a cesspool of a degrading new generation that does not care for the themes and messages of long-formed emotional films and projects. **So if you want the real reason, blame Piggy: Intercity.**

While you're young, like I was, you would rather look at the cool characters and the progression you make with a long series or film, and

when you're wiser, you consider the numbers and analysis. All Aces 1 only debuted with 11k views on YT, which is scraps and pennies in our economies. To quote G.K Chesterton, "It is always easy to let the age have its head; the difficult thing is to keep one's own."

Regarding the roadmap to All Aces 2, I will essentially drop the curtain and release as much progress that we made before the cancellation, including the Liberator map, multiple sets, **and a script with many voiceover lines.** You have many things to look forward to!

Speaking about things to look forward to, I'd also like to announce that this isn't an end, but rather an evolution. Doggo Studios is in fact no more, but will rather be **MERGING WITH SUNLIGHT PRODUCTIONS,** directed by the All Aces 2 producer, zombie, who's been passionately working on games, films, shows, and has some good connections. The All Aces Universe will fall amongst the sea of amazing content that will hopefully be provided in the future as Piggy slowly regains popularity with the release of NickTheGreat's "Piggy: Book 3" that I can say is a breath of fresh air after Intercity.

Nothing comes to a proper end, and I'm sure that we'll be seeing our legendary RYDER THE RAT appear in multiple projects to come, whether that be revivals or brief cameos. I admit that I've put blood, sweat, and many tears into this project, but I've always had a smile becoming friends with so many individuals who have changed my life for the better. I hope I did the same for you. I hope All Aces mattered.

- *With love, DoggoAnimates*

—----------

Hello there! I’m ZOMBIE, the producer and main distributor for AA2, which you obviously know by now is sadly not happening. We’re releasing every single bit of work we’ve done for the film to open up for a new era, introducing our MERGED STUDIO:

Sunlight Studios is a platform studio that plays out similar to a cinematic universe, where our main effort is to promote, fund, and assist in directing/producing multiple projects from within Piggy and outside of Piggy, whether they be roblox games, movies, or shows.

Our main goal is to give others a lift that they otherwise aren’t able to do on their own, such as giving them a team and a platform to thrive in. We only accept the best of the best scripts and games to promote, so expect a lot of variety in our new merged studio! Although All Aces 2 and the Piggy genre might be gone, this is only paving the path for tens and maybe hundreds of projects for the potential future for you to enjoy. If you’re interested in being a contractor or have your project under our studios, DM Zombie or DoggoAnimates. We can’t wait to see you there!

—----------

ALL ACES 2 TEAM STATEMENTS:

YvernVA:

Hi everyone! I wish I was talking to you on better terms but, yup. Honestly, All Aces changed my life. Well, I won't beat around the bush, Doggo changed my life. I met him back in 2020 during the pandemic when Sebby was still his main focus. (i know most of yall don't know what that is) We would build maps in Piggy's Build Mode with our friend Matt.

Rest in Peace. (Comment from DoggoAnimates: Bless you 💗)

As time went on, we went our separate ways for a little while after Doggo finished Sebby's 30th and final episode, which I actually helped act in. I had tons of fun and it's honestly a part of my life I'll never forget.

Fast forward to 2022-2023, and I get a message on Discord. It was Doggo! He hit me up because he was working on the REAL finale of Sebby, Sebby: Beyond Redemption. I was a very small voice actor at the time and wasn't even taking it seriously, but Doggo helped me realize how much I loved voice acting. Sebby: Beyond Redemption released and it's still a project I hold near and dear to my heart.

(Note: I love this finale so much, because 1. It's my first voice acting piece and 2. I got to voice Matt, and I wanted to do the very best I could for him.)

After Sebby, he started working on All Aces, which is where you all come in. I'm honestly so blessed to be able to voice Ryder the Rat, he's my favorite type of character as i adore comedy characters and things like that. This is when i really started to take off as a voice actor, and now I'm here with over 80 roles to my name in various projects!

Now, about my feelings about my departure. I'll miss All Aces. All Aces changed my life. It made me new friends, new memories, new opportunities, and everything. Hell, I even got my own minisode. I'm so grateful to Doggo and to the rest of the voice actors, plus the community who gave me everything i could ever imagine and more.

God damn it im crying, i never cry for stuff like this. Ill miss all aces. Ill miss all of you. I love you all so so so much and i do hope ill see you all again, whether in other projects or other communities, wherever. I love you all, so much. Thank you to the community, the voice actors, the crew, everyone.

But an especially large thank you to Doggo and Matt. you two changed my life. Ill remember you all.

Thank you, All Aces, for everything.

"Ryder here. I was at the lowest of the low. I sometimes still think I am. But just know, friends. I'll always be here for you. In the highest highs, in the lowest lows, don't forget me, will you? I know someone certainly won't. As I've said, 'You're in the moment. Your past is the past. Your actions will surely make up for whatever you believe you've done.' Right as rain. Right as sunshine. Right as the sunset's ever glowing horizon. Love you all."

- YvernVA, Ryder the Rat.

TheLegolink:

Me and doggo met over 5 years ago. We bonded over piggy and had some crazy stuff happen in discord with hackers and stuff. Once piggy ended and there wasn't many updates, we kinda grew apart and didn't talk much. I focused more on my stampy tutorials series until I somehow saw he was looking for voice actors for the Sebby movie. So I decided to help out and lend my voice, which was cool. Then he asked me to do all aces, which I accepted. During this time we grew close again, bonding over tv and film such as andor. I also learned he had very similar music tastes to me and I enjoyed discussing shows with him. So yeah it's been great to be friends with doggo over the past years and I hope we continue to talk well into the future. I'm excited to see the future projects you make and how they will be unique.

JiJi:

heya, all! even tho i've been pretty new to the cast, i just wanna say thank you to all my fellow cast & crew members for changing my life.

i started voice acting in 2019 & i haven't stopped working since (aside from a few breaks) & i started working with doggo in nathan's piggy series life in 2024 & we all have been getting along good. & then i was hand selected to be part of the all aces 2 as a new character paola while the first movie was still in the works. getting to meet the cast & crew, & even the fans, i'm very grateful for that, even tho i'm still kinda new.

now i hate to get personal, but i'd been downplaying myself throughout my entire life & i thought i'd never be good enough for anything, especially in my career & i just wanted to give up. but then you guys have really inspired me in a way to keep going & work harder on myself. i'm so happy & so grateful to be surrounded by incredible & supportive people whom i call my other family to me. it's a big deal for me.

i'm fucking crying just writing these from my heart, oh my god. i do that a lot, what? anyways, yea. i wanna thank everyone for changing my life through &

through, & i'm excited to see what the future holds for y'all & myself. i can't wait for them. <333

also, i really think paola's an interesting character, don't you think? i wish the audience got to know her a little bit better. <3 as a panda lover, she's my spirit animal. i got to put all my heart & soul into that character & i'm very proud of that, even tho most of you haven't heard that yet. even with a lot of the fuck up moments 'cuz of my natural accent in the way & such, those funny accidents make me smile & laugh.

hopefully i'll keep in touch with everyone here & i'm excited to see what's gonna come. once again, thank you all for everything, & thank you doggo for changing my life. <3

- love, JiJi (Paola Panda)

Plushie:
Hey y'all, you probably know me but if you don't, I'm the voice actor of Trevor in Sebby: Beyond Redemption, Sparky in Sparky Origin, and of course, Tigry in All Aces. I just wanted to thank this amazing team for giving me laughs throughout the years and everyone who supported us through the production of Doggo's projects. I started working with Doggo since Sebby which was in (idk how long ago) and thanks to him, I was able to jumpstart my VA career, and ever since I did, I've been cast across multiple amazing projects and it could not have been done without him. And then there's the others. Where do I start. First, yrgit is canon in my eyes and nobody can tell me otherwise (that kinda rhymed), second, I really REALLY enjoy hanging out with the cast and you guys, yes YOU, especially back when we did game nights and that stupid yet hilariously genius "tigry and yrgit show," I genuinely had a fun time whenever I got to be with you guys, even in my darkest days I'll always think back on how much fun we had and can hopefully still have.
You guys all changed my life, and I can't express how happy I am to be in this position. I wouldn't change a thing in the past and that's facts. (Except maybe a

few minor things cough cough my voice crack takes cough cough.) Thank you guys so much, I love you all and I can't wait to see where my road continues, hopefully you guys will still come along with me on my journey.

"eat your homework and do your food…not like that though sickos. ALSO SEND ME ANY CHELSEA PICTURES YOU GUYS HA-*connection terminated*"
-Tigry
