

Hey Manuela,

I know you're busy helping people heal emotionally through movement and mobility but I thought it would be wrong if I didn't point out something I noticed looking into your program "HIPS LIKE HONEY".

I noticed that you don't have an opt in page or a pop up for your email list.

Because you have many programs I assume you would but have you got an email list or is this something you're currently working on gathering?

I just wanted to know as not having one could be the cause of leads slipping through a hole in your funnel.

Michael Manuatu
