

## 9-12 Mathematics

**This is work for the dates of May 4 to May 8**

### Message to students and families:

Parents & Students - Welcome to the 9-12 Mathematics Portal. Please reach out to your aligned teacher for questions specific to your course.

### Algebra 2R

Continue using [www.emathinstruction.com](http://www.emathinstruction.com) to watch lessons 10-8 and 10-9. For each lesson, fill in the notes and complete the corresponding homework assignment. If you can print the lesson and HW at home, that would be great. If you can't print at home, then take notes on lined paper as you watch the lesson. You may do the HW assignment on lined paper as well as long as you clearly label the problem #s and assignment #s.

I will be sending out another quiz Thursday covering lessons 10-1 through 10-7. The quiz will again be open notes and must be returned by the end of the day.
