Not selling as many shirts as you'd like?

I really like the designs you came up with on your shirts and jumper, it caught my eye as I saw it when I was scrolling through instagram and i just had to look at the other clothes you designed.

I think it's an absolute bonus how you offer 10% off for first orders, that also caught my eye as not many clothing stores actually do this.

However I have an idea on how you could spread your clothing for more people to see and purchase online, competitors are doing the simple step of moving to different social media platforms rather than just one. It's not as simple as just posting your product, there's secrets I can show you to bring in the most to your business

Let's have a conversation about how you can reach more people than ever before.

Thank you for your time.
