

[Idaho wolves will remain under state control despite judge's decision](#) August 7, 2025

Idaho Fish and Game

... Idaho's most recent wolf population estimate from spring 2024 is 1,235 wolves, which is well above the recovery goal of 150 wolves, and more than twice the number identified in the federal delisting rule written in 2009... a judge's recent decision that calls for the U.S. Fish and Wildlife Service to reconsider a previous determination that relisting wolves in Idaho, Montana and Wyoming under the Endangered Species Act (ESA) was not warranted...
