

For People Who Want More...

... The SMALL & EASY Productivity Tweaks
You Can Use As Soon As Tomorrow Morning To
Get A LOT MORE Done... With WAY LESS Effort!

My name is Matt, and I'm the in-house copywriter at Rapid Crush, Inc.

Among other things, that means I get to work with Jason Fladlien on almost a daily basis.

And working so close with Jason, I've uncovered his secret. I know WHY exactly Jason Fladlien isn't painting houses for \$12/hour anymore and is making **millions** online instead. The reason is...

Jason's Productivity Is EPIC!

"And working so close with Jason, I've uncovered his secret"

I like this line because it shows that the writer has had personal experiences with his character. Reassuring the reader that the research comes from a personal viewpoint, which is much more trustworthy than the "outside looking in" viewpoint.

Using this lever is much more difficult to accomplish than using the common "outside looking in" tactic. But when given the chance, I would always use it.

You'd have to see it first hand to believe it... But trust me, **it's legendary.**

Long form sales letters in **3-4 hours**, fully formatted and ready to publish. Email swipes in **15 minutes** or less. Complete marketing strategies for consulting clients in **40 minutes**. And so on.

Even more importantly... **the son of a gun is able to teach ANYONE to be productive!**

For example, when I read Jason's "Double Your Productivity" course... My productivity **TRIPLED**.

... And that's not even a very good result. I'm about to reveal how you can **get even better results**, but first...

I Want To Ask You A Question...

Imagine the following scenario.

You're able to let go of your overwhelm. You're able to breeze through your TODO list. Achieve all of your goals almost effortlessly - every day.

Be completely productive, your mind always present in the now.

"For example, when I read Jason's "Double Your Productivity" course... My Productivity TRIPLED"

A classic example of upselling, taking their promise and bringing it a step further. He then takes it beyond by including "... And that's not even a very good result"

This tactic is very versatile, being able to fit just about any scenario and is a HUGE lever that should be used at least once per copy.

If you were able to get twice as much done with half the effort... wouldn't that change your life almost IMMEDIATELY?

If that sounds like something you'd like, you're going to love Jason's latest productivity training.

Introducing...

Absolute Productivity

... Laser-like Focus And An Instant Productivity Boost For Marketers!

Here's what's covered in the training:

- ➔ Why productivity should be "optional" and a byproduct of doing _____...
- ➔ The **biggest time wasters in internet marketing** and how to **completely kill them** once and for all...
- ➔ How to actually **manage Facebook in an efficient and profitable** way...
- ➔ What parts of **time management** can be learned and what parts must be "conditioned"
- ➔ How to immediately free up **2 free productive hours each day starting tomorrow**

When applicable, a basic rundown of the product should be mandatory when writing copy.

Revealing many points of interest of the product but not so much as to where the reader wouldn't need to continue to the next step of the funnel.

"And more..." is a basic, "Bare Bones" fascination that tells the reader that there's greater value further down the funnel and encourages them to keep going.

➡ And more...

This training is delivered as a webinar recording - you can watch it any time, pause, fast forward/rewind and start immediately applying these explosive productivity techniques.

... And You're Getting In At An Absolute Bargain!

Even if you **only implement ONE technique** of all what you're going to learn... And that one technique **leads you to a breakthrough** in your business...

Would you agree that for **almost a guaranteed increase in your productivity for life...** Paying \$299.95 and even more would be an insane bargain?

In fact, if you were to pick Jason's brain one on one for his productivity secrets, you'd have to shell out \$300 per hour - and probably wait when there's a spot available in his schedule.

So even if Jason charged \$149.95 for this... I'd pay that and not even flinch.

But this is going to be **a no-brainer**. Check this out...

Right now, you can grab the recording and watch it at your leisure for just... \$49.95!

Transitioning from story to sell can be dicey most of the time, as it's usually the part of the copy that makes or breaks the deal. And if done incorrectly can come off as very salesy

Bouncing around between "What could have been" mid and high prices, then revealing the actual price as the lowest on the list reassures the reader that they are, in fact, getting a good bargain.

Obviously, There's No Risk...

If, after watching the training, you feel you haven't gotten 100 times your money's worth... Jason absolutely, positively demands that you write to our [support desk](#) and ask for your money back. And you'll get it without any hassle!

Remember, we only want you to spend money on products that you're getting value out of!

No Matter How Far Along Are You, This Is The Missing Ingredient...

Whether you're trying to build your online business while keeping your full time job (nothing wrong with that) or you're a freelancer, Jason's productivity training will take you to the next level.

The question is, will you let that happen?

Secure Order Form

Yes Matt! I'd like to immediately get Jason's incredible productivity webinar training and be more productive less than 2 hours from now!

YES! I'm completely covered by an ironclad 30 day money back guarantee!

Rapid Crush, Inc.

P.S. I bought this training myself... Why? Because I know from experience what even a little change in my productivity habits and focus will result in over the next couple of months and beyond... and second, Jason knows how to teach - you get exciting, actionable info from the first minute to the last. See you inside!

P.P.S. Make sure you act now. Even though we don't have plans to raise the price right away, we might lock this product away to do an upgrade and charge more!
