Gang-related Information:

Why do you want to lead the Grove Street Families?

I want to be a Grove Street Leader because I spend a lot of time in the game and I had a high rank in Grove and Marabunta, I know all the rules and I know the forum. Besides that , the gang life makes me a lot of fun.

I always wanted to lead the Grove, because i love the history behind it and how it emerges into the RP.

I want to be the Leader of Grove because green is my favourite colour.

What are your plans and goals for the Grove Street Families under your leadership?

We want to focus on good RP moments and activities like Ammunation rob or Fort Zancudo Raid.I also want to show many new players how much fun it is to play on this server and to promote RP.(focussing doesn't mean we neglect the other events.)

We also want to have hostage situation with the state organizations and in general more RP activities than OOC events.

How do you plan to handle internal conflicts within the gang?

We will always talk about how the members are doing and what they would like to do. Besides, we will always look for the conversation if there are any problems.

Describe your character's leadership style.

Very chill, but also very strict if it's about the rules of the server. It's important to me that everyone has fun, even if we lose. I don't want someone who's mad and makes mistakes because of it.

Provide any additional information or backstory that you believe is relevant to your application.

I have already tried state organizations and gangs on German servers, i know all the rules and know how to interpret them.

I would look forward to a conversation and thank you in advance.
