

Agenda: Itana Business Architecture Working Group (IBAWG)

10/23/2020

Agenda & Notes (will be put in the chat)

1. Introduction and Announcements

- a. Attendee roll call ---If possible, update your name and the institution you are from in the Zoom Participants window and I'll do a screen capture and put it in the agenda notes:

■

2. General Discussion items

- a. Dana's 2020 Continues

■

- b. CAUDIT Higher Education Reference Model Version 2.5.0 has been launched!

- Closer relationship with the Data Model
- Steps towards Product Management
- Value Stream visualization ideas welcome
- What is between Business Capabilities and Data (Process and Service?)
- J.J. would be happy if there was technical platform model.
- Mahmoud: Organization Strategy. What is important to the organization and what data is needed to drive the change efforts.
- Raoul looks at the models as starting points.
 - 1. Process and set of tools to look at customization to look at duplication of capabilities.
 - 2. Understanding the common boundaries.
 - a. Looking at different types of universities.
 - b. Looking at overlays (navigating the hills and valley's)
 - c. A type of evangelism
 - i. Use of tools
 - 1. Archimate
 - 2. Visio
 - 3. Lucid Chart
 - 4.

c. Other Updates?

- [EA Symposium](#)

1. November 23-26

3. Upcoming sessions and future session ideas?

a. Reach out to participants for upcoming sessions

- <https://spaces.at.internet2.edu/pages/viewpage.action?pageId=119931519>

1. Tad, Mahmoud?

b. Itana Wiki Refresh

- <https://drive.google.com/drive/folders/19SJqMrMqBB1VOIXggmKxUPFAnbAzunbL?usp=sharing>

c. ITSM Open House Idea (Monthly)

4. Notes:

a.

Chat:

From jeff kennedy : Hi Dave: you're at the University of Georgia?

From jeff kennedy : Hi Mona!

From Dave Bunten : Hi Jeff- University of Colorado Boulder :^)

From Stelios Bourmpoulas : Hi to everyone from University of Macedonia Greece

From jeff kennedy : @Dave = apologies, but hello and welcome!

From jeff kennedy : @Stelios = great to see you again!

From Angela Chauncey : Hello everyone! Kansas State University.

From Dave Bunten (University of Colorado Boulder) : @Jeff - no worries, thank you!

From jeff kennedy to Dana Miller (Privately) : ...i'll need the ability to share a screen, please!

From Dana Miller :

https://docs.google.com/document/d/1ktXiqP7-2DUoSSr_dbReClcBaHriGsl-TwPTK5G994g/edit?usp=sharing

From J.J. Du Chateau (Wisconsin) : Yay to ArchiMate & Visio!

From Sara Fox : Yes, I agree with JJ!

From Betsy Draper - Kansas State University : The integration of the DRM and BRM is great given the efforts going on data warehouses, lakes, etc.

From Tony Turrin (University of North Florida) : APQC has an Education PCF, but it's focus is on elementary through secondary education. Given the differences between K-12 and higher education, I would think one for higher ed would be in order

From Sara Fox : I have used that APQC model before, and it is very focused K-12. AS Jeff mentioned, it can work for enabling capabilities, in my experience.

From jeff kennedy :

<https://library.educause.edu/resources/2019/11/higher-education-it-service-catalog-second-edition>

From David St Pierre Bantz, U Alaska : must leave for local issue

From Tony Turrin (University of North Florida) : That is valuable, from an ITIL standpoint

From Tony Turrin (University of North Florida) : I've seen some stuff from Gardner that might be helpful

From Raoul P Sevier : Was there anyone on the DRM team that brought a MDM perspective to the table?

From Betsy Draper - Kansas State University : Ladan - Haven't you used the BRM as a heat map, per se, to visualize software (and potentially hardware)?

From jeff kennedy : @Raoul = not specifically MDM there, as that's a bit of the "how", though we would expect data governance and data management to be applied actively across the data estate.

From J.J. Du Chateau (Wisconsin) : Ladan, how do you use the laminated version in online meetings?

From Mona Zarei Guerra : I have to leave. I am pulled into another meeting. Thank you very much.

From Ladan Heit : Unfortunately we are not using our Business Architecture model in the meetings and conversations (I am ashamed to say),

From Betsy Draper - Kansas State University to Dana Miller (Privately) : Mahmoud is trying to comment too.

From Ladan Heit : I am still on an uphill struggle to bring the institution onboard with using and referencing a business map/model for decision making but they are too busy just buying solutions without any long-range vision.

From jeff kennedy : NN's Service Blueprint =
<https://www.nngroup.com/articles/service-blueprints-definition/>

From J.J. Du Chateau (Wisconsin) : Well said Jeff.

From Stelios Bourmpoulas : I suggest TOGAF Organization Mapping Guide as the "glue" of the BRM (Organization, Business Capabilities and Value Stream)
<https://publications.opengroup.org/d269>

From Ladan Heit : If I drop out it is because I need to run to an appointment; having a great and safe weekend.

From Ladan Heit : I mean "have a great weekend!"

From J.J. Du Chateau (Wisconsin) : Have a great weekend all.

From Sara Fox : Thanks for all the work on the models!

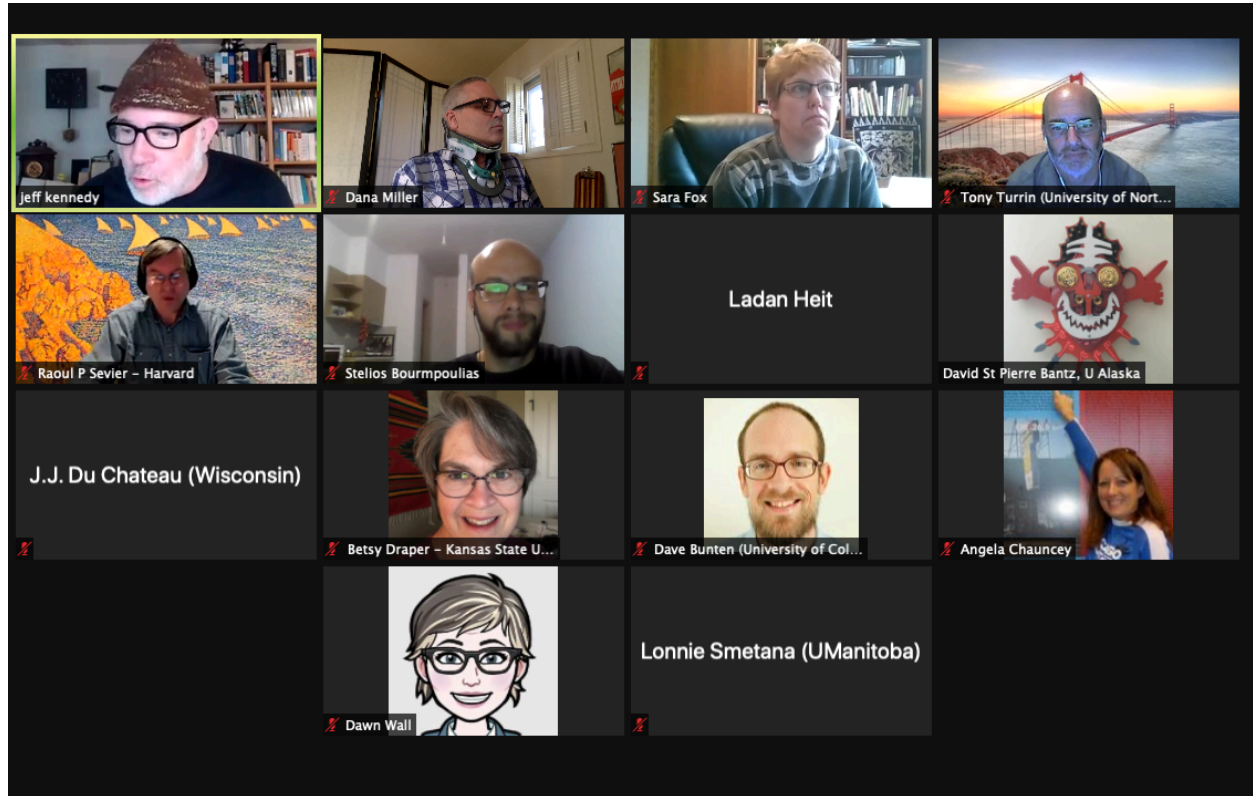

From Ladan Heit : Thank you Dana;

From Raoul P Sevier to Dana Miller (Privately) : If the v250 material doesn't get to me automatically, I would appreciate a copy

From Stelios Bourmpoulias : Thank you!It was really usefull!

From Lonnie Smetana (UManitoba) : Thank you. This was a great session

Screenshot of attendees:

	Dana Miller (Host, me)
