

South First Responders – the ZAKA connection

The following screenshots from Telegram channel 'South First Responders' (<https://t.me/southfirstresponders>) point to ZAKA first responders as being the group behind the Telegram channel, which uploaded original footage from within Israel's 'closed military zone' in the days and weeks following October 7.

South First Responders

Reminder to our viewers. All footage that we post here is sent by those operating in the field, unless we explicitly say it is not. If we post it, it means that one of our guys in our network has sent it to us from the ground in the south.

These footage are free to use, in hope the world will see the true horrors that took place here. All we ask is that you attribute "South First Responders" group for the important work that the guys are doing.

Our guys have reached Kibbutz Be'eri, the site of the worst Hamas assault so far. The footage below is delivered to us from the Kibbutz security cameras. If you use this footage we ask that you attribute "South First Responders"

If you feel that it is important for others to see what is happening here, please

Our guys have reached Kibbutz Alumim, near Kibbutz Be'eri. At this Kibbutz the community guard managed to kill a number of Hamas terrorists and prevent them from reaching main living areas. Sadly a terrorist squad succeeded in reaching the living quarters of several Thai agricultural workers and slaughtered them. In this video we can see footage of the living quarters.

We know that Israel and many others around the world are working now to piece together what happened in this unprecedented attack, which targeted dozens of civilian towns and villages. We hope these images and footage, which our guys risked their lives in many cases to obtain, will help with this.
