Operation Briefing

It is 02/08/[REDACTED], 05-4 "The Rebel" is hospitalised in the medical wing of the site-[REDACTED]. All efforts are made by clearance level 4 trusted medical personnel to ensure the recovery of -4. After multiple high-risk operations, usage of SCP-500 and SCP-2295 and exposure to SCP-427 for a brief period, unfortunately, all attempts have failed. There is no hope for recovery and survival of -4.

Therefore, a replacement for -4 is required.

MTF Epsilon-11 Commander "Bavarian" is number one on the potential candidate's list at the time of the creation of this document. A vote within the council resulted in 10 out of 13 for Operation Usurpation, a mockup S.C.P. containment breach has been launched at the site-[REDACTED] hospitalising -4.

The goal of the operation is the assessment of the leadership of Commander "Bavarian" and the success to reinstate the safety of the site-[REDACTED] and especially recovering -4 from the site-[REDACTED] to the site-[REDACTED] for -4 funeral.

MTF E-11 and its Commander do not know about this mockup S.C.P. containment breach but are only informed about multiple confirmed S.C.P. breaches of site-[REDACTED]. The following transcripts are reflecting about the events before, during and after the operation of reinstating the security of site-[REDACTED] and rescuing -4.

CPT Jonas Enry: Line up double row. Attention.

COM Bavarian: At ease. Great round 3. You have capitalised all instructions well. But you are slow. It took you almost twice the time given to sweep the area. In a real scenario, you would be...

Bavarian stopped speaking as soon as he felt the vibration of the emergency call Pieper.

Bavarian looks immediately and reads silently the text of his Pieper: "EMERGENCY - PAPER IN OFFICE"

COM Bavarian: Training concluded. Prepare for operation in T-30 minutes. Regroup at helipads.

E-11 Operatives: Sir, yes sir!

E-11 Operatives are returning to their bunks, equipping themselves with all needed equipment.

Meanwhile Bavarian and Jonas Enry are rushing to the commander's office. In the small dark room, a document is being printed from the tax device with blinking a black LED.

Bavarian picks up the document...

Transcript log #2: Operation

Date: 03/08

Time: 16:23

Foreword: MTF E-11 are dispatched to site-[REDACTED] to contain the containment breach. MTF E-11 are arriving roughly in 8 minutes by transport with three helicopters.

Personnel: Commander "Bavarian", Captain Jonas Enry, 18 E-11 Operatives, Co-Pilot, Site Director

== START OF LOG WITH RELEVANCE ==

CPT Jonas Enry: Pilots, ETA update.

Co-Pilot: So long as there isn't any turbulence and the Chaos Insurgency won't interfere, ETA is 8.

CPT Jonas Enry: Commander, ETA is 8.

COM Bavarian: I heard it as well, captain.

COM Bavarian: Attention everyone, we are arriving shortly at the falling site. You know our mission. We have 3 Euclid and 1 Keter. Expect the worst.

We split into 4 teams, 5 each. I am leading team alpha, Jonas team beta. The two Command Sergeants, the other two remaining.

Bavarian is designating the E11 into the 4 teams and

E-11 are about to land at site-[REDACTED].

COM Bavarian: Remember the drills. And remember: The SCPs don't hunt us, WE hunt them.

CPT Jonas Enry: Prepare for rappelling.

E-11 are rappelling from the helicopters, entering the garage of site-[REDACTED]. Bavarian finds and talks to the Site Director.

COM Bavarian: Hello Site Director, short situational report?

Site Director: Hello Commander, finally you have arrived, we are losing people like flies. Please handle the situation before it comes here. All SCPs are in LCZ and HCZ. EZ should be clear but SCPs are about to breach into it.

The Site director hands over the facility floor structure.

Bavarian comes closer to the Site Director and whispers:

COM Bavarian: Status and location of the VIP?

Site Director: Location LCZ medical area, not fit for transport on his own. A-1 is defending. More is not known.

COM Bavarian: Copy. I will get him out.

Bavarian and his team Alpha are following the already-entered other 3 teams into the entrance zone. A lot of personnel are still evacuating from LCZ.

COM Bavarian: Secure the entrances to LCZ NOW. Team Delta gets everyone out who is still coming from LCZ.

Screaming from humans can be heard.

COM Bavarian: We will be moving forward. Team Bravo and Gamma are moving to the staff area. Team Alpha will secure the medical area. Terminate D-Class on sight.

Bavarian opens the blast door leading to LCZ. More screams can be heard and eye contact is made with SCP-049-2s.

COM Bavarian: OPEN FIRE!

Over the course of the next few minutes, gunshots of the Karma-45, FHR-40 and M249 para can be heard. Sound of how blood sprays around are as well recorded.

COM Bavarian: Ceasefire. We terminated a lot. Now secure the areas.

E-11 is moving forward in line and hand on the shoulder of the operative ahead. You can hear the heartbeat of Bavarian, so silent it is.

COM Bavarian: It is too silent, be ready for ambushes and surprise attacks. Set up shield walls and move forward to the medical area and staff area.

E-11 is reaching the crossroads requiring now the teams to finally split. Team Alpha is heading to the medical

area, and Team Bravo and Gamma are heading to the staff area.

Multiple armed D-Class are heading towards the medical area to seek shelter. E-11 are opening the fire and you hear the sound of the ARX-160 used by A-1.

COM Bavarian: *We are almost there. Keep going.*

Team Alpha is entering the medical area and is under gunpoint by A-1.

COM Bavarian: Team alpha, turn around and secure the medical area.

While Team Alpha is turning around, setting up defensive positions, Bavarian is putting his weapon on safety and behind his Back. He approaches the A1 slowly with his hands in the air.

COM Bavarian: A bite at the cherry.

The A-1 successfully identified Bavarian as the E-11 Commander and let him in.

A-1 Member: What is the situation?

COM Bavarian: At the moment, clear to evacuate. How is he?

A-1: Bad. None of us is capable of carrying him. We are all too wounded. We will escort you.

COM Bavarian: Copy. Let me get a situational report.

COM Bavarian over radio: Status Team Bravo and Gamma

Team Bravo: Staffarea is almost secured, starting evacuating personnel. Team Gamma is going further...

The communication cuts suddenly.

COM Bavarian: Team Bravo, report status, what happened?

No response.

COM Bavarian: Team Gamma, report status, what happened?

After waiting for several seconds:

Team Gamma: SCP BREAKING INTO STAFF AREA, BACK...

Screaming from the same voice and footsteps of SCP-939 instances can be heard.

COM Bavarian: Team Delta, focus staff area now. Secure it at all costs. Team Alpha we are going to move to EZ.

Bavarian approaches -4 slowly and speaks quietly.

COM Bavarian: Hello sir, we will get you out now. I will have to give you a piggyback ride.

-4: Do what you need to do.

COM Bavarian over radio: Team Alpha, be ready to move to EZ slowly. We have to avoid the SCP-939 instances. Team Delta, what is the situation?

Team Delta: *No response*

COM Bavarian locally: I get it, SCP-939s are near the staff area/crossroads.

COM Bavarian: Moving slowly now to EZ.

Team Alpha, A1 and Commander Bavarian with -4 are moving slowly towards EZ.

Approaching almost the blast door of EZ, avoiding multiple SCP-939 instances. They turn a corner and are faced SCP-049.

SCP-049: Greetings. In order to go through the blast door, I will have to cure your pestilence

Bavarian tries to show SCP-049 to not come further to the group but fails. SCP-049 approaches the group slowly and especially -4.

A-1 is opening the fire, SCP-939 instances are approaching the group now. SCP-049 gets pushed away, and the group starts to run but it is a long way for everyone.

COM Bavarian: We will not make it in time, the dogs are too fast.

Team Alpha member: Sir, we will lead the instances away from you. We loved serving you. Run.

A-1: We will follow and lead them as well if required.

The 939s are approaching Team Alpha and A-1 who have stationed themselves the chairs on the floor. The 939s are passing Team Alpha towards the running commander with

-4. The commander looks back and sees Team Alpha opening fire on the ground. 939s stopped and turned around. While 939s are running to team Alpha and A-1, the commander just makes it in time to the final exit elevator with -4. Looking back, he sees the blood of the E-11 all around the floor.

COM Bavarian: That was crazy.

Bavarian comes out of the elevator with the -4 on his back greeted by multiple armed people guarding the elevators. He looks deeply into the eyes of each guard and gulps. The remaining medical personnel in the garage are placing -4 from Bavarian into a medical transport board. Bavarian is escorting the transport to the helicopter. During it, he looks down at the Site Director and enters with -4 the helicopter.

Transcript log #3: The end of the start

Date: 04/08

Time: 01:24

Foreword: MTF E-11 Commander arrives with -4 at site-[REDACTED]

Personnel: Commander "Bavarian", multiple other people

== START OF LOG WITH RELEVANCE ==

COM Bavarian: Sir, it was a pleasure to help you but this mission was by far the hardest one. Get well soon.

The helicopter containing Bavarian and -4 arrives at site-[REDACTED] helipads. Medical personnel are already on stand-by to start medical treatment for -4 and Bavarian. But before Bavarian had any chance to get medical treatment, he was greeted by multiple A-1 members.

A-1: Please follow.

Bavarian follows A-1 to the room next to -4's treatment room. Multiple black-suited people are standing and looking at -4.

-1: Hello Commander. You have finally made it here. You have followed the instructions we have given to you. But you failed to contain and reinstate the security at site-[REDACTED]. But more importantly, you have rescued -4 to this facility. The 3 Euclid and 1 Keter were a bit too much for the simulation.

COM Bavarian in his mind: Simulation?

-1: Correct. The whole containment breach was a simulation. All of your E-11 members are safe. Site-[REDACTED] was scheduled to have a code black simulation and -4 is in a very critical...

-1 stops speaking and Bavarian looks towards -4, seeing how his heartbeat monitor stops to project heartbeat activities...

-1 resumes: See, sometimes you are going through simulations but now you will have to go through the reality Bavarian. You will do it, right?

Bavarian: Sir, yes!

-1 turns towards Bavarian and reveals a just emptied injection gun in his left hand.

-1: I am in need of somebody new, like you Bavarian. You are going to take up the work we still have to do and lead just as you lead your old task force. Welcome to the Council, -4 "The Pioneer".

-1 shakes the hand of the new -4 and are leaving together with A-1 to [REDACTED] for further [REDACTED].
