

High Five Friday

Give Activity

Share a Skill

We all learn things at different times. Maybe there is something you can do that your friends, siblings or pupils in a younger class might need help with.

Could you help them to become more independent by helping them learn it for themselves?

Working out how to do something in school – like times tables

Clearing up after lunch

Paying for something in a shop

Tying your laces

Doing a new hairstyle like a plait or ponytail

Is there anyone in your class that has a skill you would like to learn? Do you have a skill that you could help others become independent with?
