

Apply for a **GeoMundus Mobility Grant:** Best paper award – up to 500 €

The GeoMundus Conference, as a student led summit aimed primary to students, is granting one selected paper that excels in the use of **Geospatial Technologies, Geoinformatics & GI Applications** a travel grants of up to €500*.

The GeoMundus Mobility Grant was established with the objective of facilitating the mobility of one student within the European Union to present its work on innovative solutions within the scope of the conference and its focus topic: Environmental challenges seen through the GI lens.

By doing this we're expecting to motivate the authors to be part of Geomundus and present their work to an audience of varied professionals with different backgrounds and experience, gaining access to valuable new insights.

To be eligible, you will have to provide **proof of enrolment**** in an education institution during the dates of the conference (25th and 26th of October), submit your paper based on the criteria mention in the guidelines and through the registration form posted on the website, where the paper conference will be hosted after the event***.

The grant amount will be reimbursed to the winner after the author presents the associated mobility costs to the congress organizers. The internal logistical processes may take up some weeks to be reflected in the winners provided EU bank account.

Apply before August 4th!

See you in Münster

* Documented travel costs

** Enrolment certificate with registration number and name

*** This process does not exclude the author to submit the paper to other papers, journals, or conferences.
