

Webinse Product Video for Magento 2

Webinse Product Videos M2 extension allows adding Videos to Product and showing them on Product Detail Page or Category Page

Overview

It's not a secret how important is to stay competitive on the market. As you could see nowadays almost every trademark try to advertise its products with different multimedia support such as Product Videos. And if you want to allow such an opportunity for your Magento 2 site this extension is for you!

With this extension, you could upload Videos both from your Local PC and from different Internet Video Sources such as YouTube, Vimeo, and Dailymotion. A comfortable backend allows quickly binding uploaded Videos to Products by setting Product ID in Video Information.

We've also added a new feature, now you could show Product Videos on Category Page. Customers will see the Product Video when hovers Product Image.

How to install the Extension

Features

- ❖ Easy installing and managing
- ❖ Adding Videos and binding them to the required Products
- ❖ Playing Videos on Product Detail Page
- ❖ Playing Videos on Category Page

Administration & Configuration

All features and user interfaces are fully configurable. You could easily disable showing Video title and description in Video Pop Up, playing Videos on Category Page, autoplaying Videos or even all extension completely. Select Webinse -> Configuration or Stores -> Configuration -> Webinse -> Product Video to go to Extension Configuration.

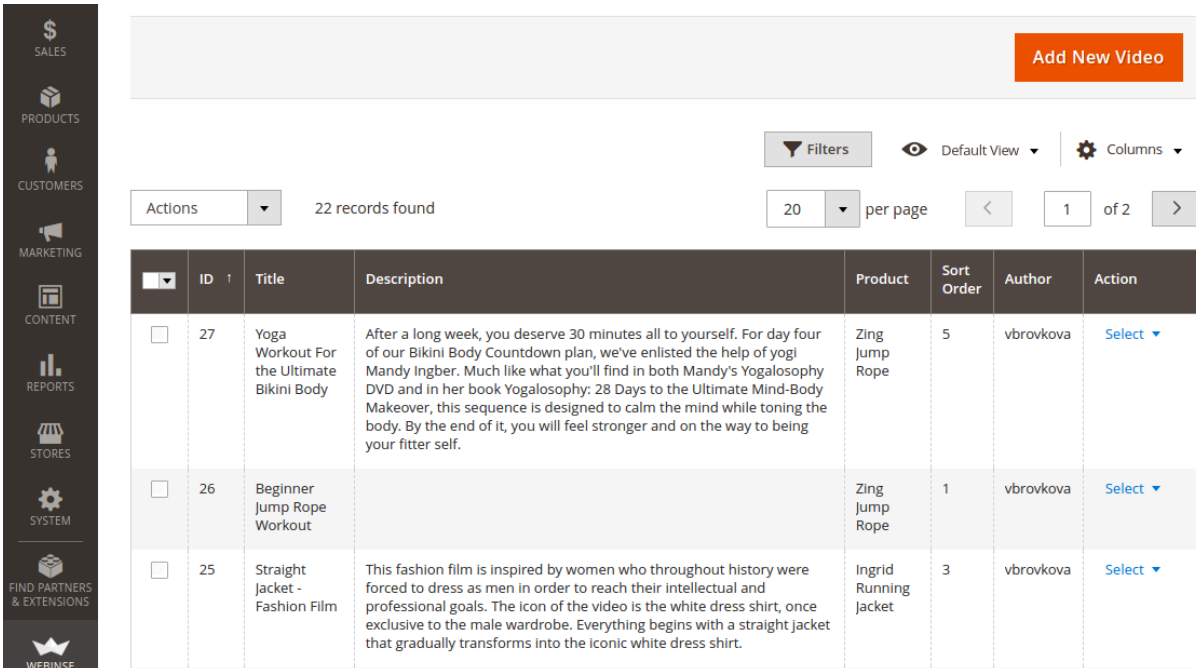

A screenshot of the Webinse administration interface. On the left is a dark sidebar with icons and labels for SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The 'Manage Videos' section is active, showing a 'Configuration' tab. The main content area has a 'General' section with five settings, each with a dropdown menu set to 'Yes': 'Extension Enabled', 'Auto Play Video on Product Page', 'Show Video as Product Thumbnail on Product List', 'Show Video Title', and 'Show Video Description'. A 'Save Config' button is in the top right corner of the configuration area.

Version & Compatibility

Product Videos M2 Extension version 1.0.1 is compatible with Magento 2 Community Edition version 2.1-2.1.8 and guaranteed to work with Magento 2 default theme.

27	Yoga Workout For the Ultimate Bikini Body	After a long week, you deserve 30 minutes all to yourself. For day four of our Bikini Body Countdown plan, we've enlisted the help of yogi Mandy Ingber. Much like what you'll find in both Mandy's Yogalosophy DVD and in her book Yogalosophy: 28 Days to the Ultimate Mind-Body Makeover, this sequence is designed to calm the mind while toning the body. By the end of it, you will feel stronger and on the way to being your fitter self.	Zing Jump Rope	5	vbrovkova	Select

25	Straight Jacket - Fashion Film	This fashion film is inspired by women who throughout history were forced to dress as men in order to reach their intellectual and professional goals. The icon of the video is the white dress shirt, once exclusive to the male wardrobe. Everything begins with a straight jacket that gradually transforms into the iconic white dress shirt. Emporio Armani / Watches & Jewelry Collection

For this Emporio Armani showcase video we identified several graphic elements on each product and that was the starting point for the entire concept. We tried to stay true to the shapes and textures of the very products and at the same time emphasize their design and aesthetics.
