**Step 1: Identify Language Demands of your UNIT (link to [unit planning guide](#))**

What is the **final task** students are completing? What will students produce? What are the language demands of this task/text?

**Step 2: Write the Language Objective for this LESSON**

How will students be communicating in this lesson?

What do students need to know about how English works or what language skill could they learn and/or practice in this lesson?

What scaffold will students need to help them communicate and use or practice a new English language skill?
