

Climate Change Proposals

So what's your plan for dealing with the issue of Climate Change? How significant is the problem? What does it mean for you and generations that follow? What kind of policy might you advocate and how would you advocate for it?

Your task for this assignment is to:

1. Identify a specific policy that will allow the United States to either mitigate the effects of climate change or adapt to them
2. Construct a creative or artistic way to advocate for it.

Potential Solutions

- Look at this site to get ideas about both solutions and creative format: [The Years Project #We Can Solve This](#)
- You may want to look at [The Green New Deal](#) (or this [summary](#)) and advocate for all or part of it.
- You may continue to explore the idea of a carbon tax.
- You may research other proposals.

Creative Formats

- Short film or commercial (between 30 and 90 seconds max)
- Song (performed)
- Graphic novel, comic strip or cartoon.
- Prezi (preferred over power point)
- Other

Evaluation

- Proposal/Policy should be clear and effective.
- Proposal/Policy should be supported by fact and opinion.
- Projects should be creative and have artistic merit.
- Projects should be your own work.

Other Information

- You may work with up to two other people on the project.
- You will have Tuesday and Wednesday in class to work on it.
- You must have a properly formatted bibliography.
- Projects will be presented/shown on Thursday, October 24.
