

**UNIVERSITY OF CALGARY  
INVITATION TO PARTICIPATE IN RESEARCH**

**SUBJECT LINE:** Invitation to Participate in LLM Research

Hello,

We are writing to invite you to participate in a study entitled, “Exploring the use of large language models among Canadian medical students: a survey study”. The purpose of this study is to survey Canadian medical students to analyze their usage patterns of large language models, including frequency, intended purposes, and perceptions of effectiveness and trustworthiness. We will explore perceived benefits and challenges, including concerns about accuracy, ethical implications, and disparities in access to artificial intelligence technologies.

The research study is being conducted at the University of Calgary, Cumming School of Medicine. You are being invited as a current Canadian undergraduate medical student.

To participate, you will be asked to complete a questionnaire regarding use of large language models in the context of medical education. There are no known risks associated with participating in this study. Participation is completely voluntary. Your responses to the surveys will remain confidential and no identifiable information about you will be kept with the research data.

To begin participation in the questionnaire please click on the following link: [CLICK HERE](#). This link will take you to our survey as well as a consent form. You may withdraw participation at any time up until submission. The questionnaire should take 5-10 minutes.

As an incentive, you have the option of entering into a draw for 1 of 10 Amazon gift cards, each valued at \$20.

This study has received ethical approval from the Conjoint Health Research Ethics Board (REB25-1075).

Thank you in advance for your time and participation in this valuable research.

Sincerely,

Austin Barr

MD Student  
Cumming School of Medicine, University of Calgary
