

xxSpotlight Initiative Country-level Results Framework

The Spotlight Initiative will endeavour for data to be disaggregated by income, sex, age, ethnicity, disability and geographic location, when possible. Data disaggregation will also be pursued for other characteristics relevant in national contexts over the lifespan of the country programmes. "Other status" or characteristics include discrimination on the basis of age (with attention to youth and older persons), nationality, marital and family status, sexual orientation and gender identity, health status (including HIV), place of residence, economic and social situation, and civil, political or other status.

Outcome 1 Theory of Change (ToC)

If (1) women and VAWG/HP experts are engaged in assessing, developing and implementing policies and legislation to VAWG/HP
 (2) if the implementation of legislations and policies is monitored
 then (3) an enabling legislative and policy environment on VAWG/HP and other forms of discrimination is in place and translated into plans, guaranteeing the rights of women and girls
 because (4) effectively implemented legislative and policy frameworks address impunity and provide for coordinated action, including in the areas of prevention, services and data collection
 (5) laws and programmes that integrate VAW/HPs into SRH services are developed, implemented and monitored
