

Clawed out eyes, broken horns, Cutie Marks on the ground bleed,
Slice 'em up, dice 'em up, terrors of the town,
Mares scream, let 'em run, nopony left to plead,
We're gonna burn this motherbucker down!
Believe me when I tell you I'm a nightmarish freak,
Slice their throats, drain their blood, let them bleed out,
Bite marks to the neck of a foal well fed,
Anypony left alive give a shout!

And the darkness thrums while the Nightmare hums,
Why do you lie there, Bitch?
Drink the blood out your neck till your heart goes numb
Why do you cry there, Bitch?
(Raise up)
I've got a human army, and you can't harm me,
Why do you lie there, Bitch?
Your best bet now would be to try and charm me,
Why do you cry there, Bitch?
(Let go!)

Vinyl Scratch to Bass Effect, here to wake the dead,
Everypony flees now that the terrors been spread,
Towns full of corpses, try to get out with your life,
Try to avoid the carnage and avoid the strife,
Look, you want meat? Maybe something to bite?
Bring your human over and get ready for a fight,
Crack bones, split skulls, spilt organs, you can suck it,
Now my human ain't nothing to buck with,

And the darkness thrums while the Nightmare hums,
Why do you lie there, Bitch?
Drink the blood out your neck till your heart goes numb
Why do you cry there, Bitch?
(Raise up)
I've got a human army, and you can't harm me,
Why do you lie there, Bitch?
Your best bet now would be to try and charm me,
Why do you cry there, Bitch?
(Let go!)

Slice your necks open, leave you motherbuckles dead!

And the darkness thrums while the Nightmare hums,

Why do you lie there, Bitch?

Drink the blood out your neck till your heart goes numb

Why do you cry there, Bitch?

I've got a human army, and you can't harm me,

Why do you lie there, Bitch?

Your best bet now would be to try and charm me,

Why do you die there, Bitch?
