🕵️ Michigan Career Zone Scavenger Hunt

Target 2: Academic Connections (Grades K-5)

Teacher Note: Use this scavenger hunt to help students see how their school subjects (Math, ELA, Science, Social Studies) are "Power Tools" for professionals in the 6 Michigan Career Zones.

The Mission: As you explore today, try to find one professional from at least 3 different Michigan Career Zones. Ask them (or observe them) to see which School Subject helps them do their job!

Michigan Career Zone	Who did you see? (Job Title)	"School Tool" Connection (Which subject do they use?)
🎨 **Arts & Communication**		□ Reading/Writing □ Art/Music
💼 **Business & Technology**		□ Math □ Computers/Tech
🛠️ **Engineering & Manufacturing**		□ Math □ Science/Problem Solving
🏥 **Health Sciences**		□ Science □ Following Directions
🤝 **Human Services**		□ Social Studies □ Listening/Speaking
🌳 **Natural Resources/Agroscience**		□ Science □ Measuring/Observation

Bonus Challenge: The "Why" Question

If you get a chance to talk to a professional, ask them:

> *"I'm in [Grade Level]. What is one thing you learned in elementary school that you still use today?"*

I learned: _____

Back at School: "Post-Trip" Quick Connection

To solidify **Target 2**, have students choose one person they saw today and complete this "Michigan Career Ticket":

- **The Job: _____**
- **The Michigan Zone: _____**
- **The Subject Connection:** "In school, I am learning **[Subject]**, which helps this worker because they have to **[Job Action]**."
