

Requests for SFYS Membership List

We have recently had requests, from members, for our membership list. This is a request under Calif Corp Code 6310-6338. Under the law, members do have the right to this list. (To be clear, this is the list of designated team managers, not the list of all families or players.) While SFYS is highly protective of family and player information, it's also true that Team Manager contact information is publicly available on many of the scheduling websites. The list includes: Name, Street Address, Email Address. It does not include phone numbers.

Requests have thus far come in from these members:

Dave Anderson
Marjorie Scott

If you are a voting member of SFYS, and you want the list to reach out to others, please write us and you can receive it too.

Members receive these instructions with the list:

- It is wholly improper to share this list with anyone else. Even other members who want the list should request it directly from SF Youth Soccer, so that members can have a public record of who is legitimately allowed to contact them.
- Communication with members must come from your email address.
- If any members reply to you with an "opt-out," you must abide.
- False statements and distortions of the record will be publicly corrected. We highly recommend that anyone writing to SFYS members first make legitimate attempts to contact sources and clarify the record.
- All California Corporations Code regulations and responsibilities apply.
