

## Post-Activity Questions - One Band One Sound

1. Observe your instrument and analyze - what is causing the sounds to be created? Think about the process from beginning to end.
2. How might you go about improving your instrument? Explain or sketch your ideas.
3. What materials do you wish you would have been able to use in this process? What limited you from using them?
4. If you could choose other instruments to make, what would you choose?
5. How does your instrument differ from ones you see in the store? What are some reasons for these differences?
