

Campus Updates & Visitor Information

MSA is continually growing and expanding to provide our students with the very best classrooms, curriculum, and learning environments. As part of these exciting campus improvements, construction is currently underway on our newest expansion.

During this time, **parents and guardians are asked to park only in the designated Visitor parking spaces** when visiting the campus during the school day.

We sincerely appreciate your patience, understanding, and cooperation as we continue making improvements to better serve our students and school community.

We also have an upgraded visitor entry system. Upon arriving at the gate, please **press the blue bell icon on the screen and swipe up**. This will notify our staff that someone is waiting to be admitted.

We sincerely appreciate your patience, understanding, and cooperation as we continue making improvements to better serve our students and the MSA community.
