Method / Metode (bold, cambria 12 pt)

This section contains the research design or type of research, data sources, population and samples (if any), data collection techniques, operational variables (if any) and analysis techniques. (Cambria, 12 pt, 1 space)

Bagian ini berisi desain penelitian atau jenis penelitian, sumber data, populasi dan sampel (jika ada), teknik pengumpulan data, variabel operasional (jika ada) dan teknik analisis. (Cambria, 12 pt, 1 spasi)

Results and discussion / Hasil dan pembahasan (Bold, Cambria 12 pt)

This section contains a description of the results of data analysis, hypothesis testing (if any), discussion of answering research questions, findings, and interpretation, and ends with an explanation of what needs to be done next from the findings. (Cambria 12pt, 1 space).

If more than one table, graph, chart, or image is presented, it must be numbered sequentially starting from number 1 (one). Tables, graphs, charts, or images must be mentioned or alluded to in the paragraph narrative to make it easier for readers to see the relationship between the description or explanation in the paragraph and the data in the table, graph, or image. The following is an example of standard writing for tables or images (specifically for tables and images, cambria 10pt, 1 space).

Bagian ini berisi uraian hasil analisis data, pengujian hipotesis (jika ada), pembahasan jawaban pertanyaan penelitian, temuan, dan interpretasi, serta diakhiri dengan penjelasan langkah selanjutnya dari temuan tersebut. (Cambria 12 poin, 1 spasi).

Tabel, grafik, bagan atau gambar yang disajikan lebih dari satu, maka wajib dilakukan penomoran secara urut dari nomor 1 (satu). Tabel, grafik, bagan atau gambar harus disebutkan atau disinggung dalam narasi paragraf sehingga memudahkan pembaca melihat hubungan antara deskripsi atau penjelasan dalam paragraf dengan data pada tabel atau grafik atau gambar. Berikut ini adalah contoh standar penulisan tabel atau gambar (khusus tabel dan gambar, cambria 10pt, 1 spasi).
