The options to be selected are for (a) whether the district wants to adopt a district-wide, specific school or a program specific program, and (b) whether the district wants to use a fixed number or a percentage for limitations.

To see if the School District will vote to designate the [District's schools] OR [the _____ School(s)] OR [the _____ Program *{e.g., High School Advance Placement Program}*] as an open enrollment program under the provisions of RSA 194-D, and to allow up [to __x# students who live outside of the School District] OR [a number of students who live outside of the School District equal to __x% of the current student enrollment of the [District/School/Program] to attend the [District/School/Program], and to limit the number of School District students who may attend open enrollment schools located outside of the Huge School District to *{state a percentage between 0 and 100}*% of the current student enrollment of the School District.

Here is another version used by another district (after the options above have been elected).

To see if the School District will vote to designate _____ High School as an open enrollment school to allow 30 (thirty) students from outside the _____ School District to attend _____ High School as provided in RSA 194-D:2 and :3 and limit the percentage of _____ School District students who may attend open enrollment schools located outside the _____ School District to zero.

Proposed Version:

To see if the Claremont School District will vote to designate all of its schools as open enrollment schools and **to limit the number of incoming students** from outside the Claremont School District **not to exceed 10% of District enrollment as of 1/1/2026** as provided in RSA 194-D:2 and :3 and limit the percentage Claremont School District students who may attend open enrollment schools located outside the Claremont School district **to zero.**
