

Book Study -

Project Based Teaching: How to Create Rigorous and Engaging Learning Experiences

Join this collaborative book study to take a deep dive into Project Based Learning and Assessment. We will be reading "Project Based Teaching: How to Create Rigorous and Engaging Learning Experiences," an exceptional resource in understanding and implementing PBLA methods. We will meet over four Zoom sessions and are inviting educators and administrators in the DCMO BOCES region.

Our discussions will center on grasping the core principles of PBLA, exchanging experiences, and crafting practical strategies for its effective use in our classrooms. This series is an opportunity to align our teaching methods with the evolving educational landscape, using insights from the book to guide our learning and collaboration.
